Dear Sir/ Madam,

**Sub: Grant Notification for Patent Application - Universal Valve for Tubeless Tire and Rim Assembly and a Method Thereof (Patent Number: 448116).**

**Scrip Code: 505978 and ISIN: INE440G01017**

We are pleased to announce that our patent application for the “Universal Valve for Tubeless Tire and Rim Assembly and a Method Thereof” has been granted by the Indian Patent Office. The patent number is 448116.

This invention relates to a valve assembly for tubeless tires and rims, which provides a universal solution for various types of tubeless tires and rims. The valve assembly includes a valve body, a valve stem, and a sealing member. The valve body has an inner surface defining a valve chamber, an outer surface, and an opening extending through the inner and outer surfaces. The valve stem is disposed within the valve chamber and is movable between an open position and a closed position. The sealing member is disposed between the valve body and the valve stem and is configured to seal the opening when the valve stem is in the closed position.

We believe that this invention will provide significant benefits to our customers and will further strengthen our position in the market.

This is for your information and records.

Thanking you,

Yours Sincerely,  
For **Triton Valves Limited**

Vishwa Hegde
